No. 1354.—Under section 303 (1) of the Madras District Municipalities Act of 1920 and in supersession of all previous notifications on the subject, the Governor acting with the Ministers is hereby pleased to issue the following rules to regulate the action to be taken to combat cholera in municipalities in the Presidency of Madras.

Rules.

1. (i) The chairman of a municipal council, through his executive officers shall be responsible for the execution of all measures to prevent the spread of cholera

(ii) In municipalities in which a full time Health Officer is employed, the Health Officer shall draw up, when there is a likelihood of the outbreak of cholera, a complete scheme specifying in detail the preventive measures necessary and shall have direct control of the special staff employed under these rules.

(iii) In municipalities in which there is no full-time Health Officer, the District Medical Officer or the Civil Surgeon or the Senior Local Medical Officer in areas which are not the headquarters of the District Medical Officer or the Civil Surgeon, shall carry out the duties specified under sub-rule (ii), or if the appointment of a special Sub-Assistant Surgeon or other medical officer is deemed necessary by the District Medical Officer, Civil Surgeon or the Senior Local Medical Officer for the purpose, the chairman shall appoint such officer who shall be responsible for these duties under their control.

(iv) In the event of any differences of opinion arising between the District Medical Officer, the Civil Surgeon or the Senior Local Medical Officer and the chairman of the municipal council, reference shall be made to the Director of Public Health, Madras, whose decision shall be final.

(v) In all cases the Medical or Health Officer responsible for carrying out the duties laid upon him by these rules shall be designated the Cholera Officer.

2. For the purpose of these rules every municipal area shall be divided into circles which shall as far as possible correspond to the wards into which the municipality is already divided for election purposes.

Provided that in municipalities in which there are wards containing less than 1,200 houses and a population of less than 5,000 persons each, two or more wards may be comprised in one circle.

Three circles shall ordinarily form a division, and in no case shall a division contain more than four circles.

The chairman shall prepare a map of the municipality showing the several circles and divisions and shall submit a copy to the District Collector for his approval. After the approval of the District Collector has been obtained, the chairman shall keep copies of the map on record in the municipal office and shall also send one copy to the Cholera Officer.

3. If it appears to the Collector of the district or the Director of Public Health, that a municipality or any part of it is in immediate danger of an outbreak of cholera, he shall send a timely warning to the chairman of the council.

4. Upon receipt of such warning, or of reliable information from other sources in regard to the likelihood of the outbreak of cholera in the municipality or in its vicinity, the chairman may apply forthwith to the Collector for sanction to bring into operation the provisions of sub-section (4) of section 288 of the Madras District Municipalities Act of 1920, and may at once appoint in consultation with the Cholera Officer an observation staff. This staff should ordinarily consist of one fully qualified Sanitary Inspector or a Sub-Assistant Surgeon, one peon and one scavenger for each circle and where the circle consists of more than one ward one fully qualified Sanitary Inspector and one orderly for each ward into which the municipality is divided. The orderly should be allowed a bicycle or other means of conveyance to enable him to distribute orders expeditiously. The chairman should at once submit a report to the Collector and the Director of Public Health showing the staff employed and the date from which it has been employed, and should comply with any instructions which the Collector may issue on the subject in consultation with the Director of Public Health, Madras.

5. As soon as the Collector's sanction for the exercise of powers under section 288 (4) has been received, the chairman, municipal council, shall give wide publicity, by means of posters or handbills and by beat of tom-tom, regarding the legal obligation which is imposed upon the owner or occupier of every house within the municipal limits to notify cases of all deaths or the occurrence of dangerous diseases in the house for such period and to such officer as the chairman may prescribe.

6. The chairman shall also notify all medical practitioners, hakims and vaidyans resident in the municipality of the duty imposed upon them, by sub-sections (1), (2) and (3) of section 288 of the Madras District Municipalities Act of 1920, in the matter of informing the chairman with the least practicable delay of the existence of any 'dangerous' disease of which they become cognisant in any private or public dwelling.

7. For each division, the chairman shall make arrangements for the prompt supply of the following articles on indents submitted to him by the Cholera Officer. It shall be the duty of the Cholera Officer to see that these articles are always stored in sufficient quantities and in fresh and good condition:—

(1) Twelve portable tin canisters for disinfectants and two rose-watering cans.

(2) Eight gallons of cresol or other similar disinfectant approved by the medical officer responsible for the arrangements.

(3) Thirty pounds of carbolic acid.

(4) Six hundred pounds of saw dust or paddy husk.

(5) Four hundred pounds of unslaked lime.

(6) Twenty pounds of permanganate of potash.

(7) Twenty lbs. of stabilised chlorids of lime or bleaching powder in small tins or bottles hermetically sealed.

(8) One pound Pro-diarrhœa mixture; 1,000 tablets Kaolin (2 grs.); and 1,000 potassium permanganate pills (1 gr.)—Keratin coated.

(9) Six galvanized buckets.

(10) Four towels.

(11) One enamel basin and stand.

(12) Sunlight soap (four cakes).

(13) Horrock's water testing apparatus.

(14) One spray pump for disinfection purposes.

8. It shall be the duty of the observation staff to obtain the earliest possible information of every case of cholera or acute diarrhœa in order that immediate steps may be taken to provide disinfection and to arrange for medical assistance. To this end they shall patrol the whole of their circles constantly and systematically, investigate every suspected case of cholera or of severe diarrhœa coming to their notice and take prompt measures to prevent the spread of the disease. At all such times, cases of severe diarrhœa shall be considered as suspicious, and as dangerous as cholera. The members of the observation staff shall arrange, with the aid of the ordinary sanitary and conservancy establishments of the municipality for the removal of all sanitary and conservancy defects which are conducive or are likely to be conducive to the dissemination of the cholera infection both within the municipality in general, and within and around the precincts of the infected house or houses in particular. They shall as far as possible prevent the contamination of all sources of water-supply and shall, when necessary, chlorinate or hankinise these at regular intervals.

9. The observation staff shall inform all inhabitants in their circles of the importance of adopting the precautions against cholera prescribed in the annexure to these rules, and shall distribute as widely as possible free of cost copies of these instructions printed in the language of the district. In order to obviate delay in the distribution of the leaflets on the outbreak of cholera, the chairman shall keep in stock a sufficient supply already printed to meet the demand of the municipality. The Sanitary Inspector or the Sub-Assistant Surgeon of the observation staff shall, by means of lectures and magic lantern demonstrations, advise and instruct the people in regard to the value of these preventive measures. He shall also advise the people to submit themselves to inoculation with anti-cholera vaccine and shall make arrangements in advance for such inoculations in consultation with the Cholera Officer.

10. The Cholera Officer shall apply to the King Institute, Guindy, for the required number of doses of anti-cholera vaccine. A small stock of 50 doses shall always be kept for emergent use.

11. All municipal servants shall assist the observation staff and the police, in every way compatible with their other duties, in obtaining information of the first attacks and in removing sanitary defects.

12. On receipt of information that a case of cholera has actually occurred the chairman in consultation with the Cholera Officer shall, if he has not already employed an observation staff under rule 4, at once employ a preventive staff on the scale laid down in rule 4 and shall in addition appoint one peon and four scavengers for each circle or such other staff as the Collector on the recommendation of the Director of Public Health, may consider necessary from time to time.

Note.—For the sake of guidance it may be laid down that ordinarily one additional scavenger should be employed for every one fresh case or less and one additional peon for every five scavengers so employed.

13. Once cholera has broken out in the municipality, no distinction shall be drawn between the observation staff and the preventive staff, the entire staff employed to combat the epidemic being designated the cholera staff.

14. The cholera staff, in addition to their general patrol, shall regularly and systematically visit every house in which a case of cholera has occurred and by every possible means persuade householders to have the cases removed to the Infectious Diseases Hospital or other place where they can be suitably received and treated. They shall render every assistance in the matter of securing carts or other conveyances for the removal of such patients, and shall see that every cart or conveyance so used is thoroughly washed and disinfected before being discharged. The hire for carts and conveyance used for this purpose shall be paid from municipal funds. Where it is found that the removal of a case to the hospital is not possible, the Sanitary Inspector or Sub-Assistant Surgeon shall take steps to isolate the patient in the most suitable part of the house and shall make necessary arrangements for the prompt collection and effective disposal of all infected matter.

15. Immediately after a case of cholera has been removed to the hospital or has been properly isolated in the house itself, the Sanitary Inspector shall disinfect the whole house and furniture, special attention being paid to the room or place previously occupied by the patient. All latrines and drains within the curtilage and those which discharge into the open outside the house shall also be thoroughly disinfected. In cases of house isolation, the Sanitary Inspector shall leave a small quantity of the disinfectant at the infected house with necessary instructions as to its use for the disinfection of the patient's evacuations and soiled linen, and the drains, etc. If any discharges have been voided on the ground, the earth should be freely soaked with a disinfectant lotion, and then covered with fresh earth.

16. Rags, mats, bedding and linen and such other articles of small value as have been soiled with the vomit or excreta of the patients shall be immediately burned, full compensation in money or kind being paid from municipal funds. Clothes shall be soaked in cresol lotion, (1 in 200) for 20 minutes and subsequently steam-disinfected or boiled for half an hour. The utmost care shall be taken to prevent infected clothing, bedding, utensils, etc., being washed in or near any source of water-supply or sent to a dhobi before being disinfected.

17. All wells in the infected house or compound shall be chlorinated or hankinised at frequent intervals.

18. The Sanitary Inspector shall visit every infected house at least once every day for purposes of disinfection, and shall continue to do so for 7 days after the patient has been removed to the hospital or has completely recovered, or has died.

The excreta of a patient shall be carefully collected and disinfected for at least ten days after his recovery. The Sanitary Inspector shall keep all contacts under daily observation.

19. All public latrines situated within an infected circle shall be flushed with a solution of cresol (1 in 250) or other suitable disinfectant twice daily.

20. To prevent the contamination of sources of water-supply, whether tanks, streams or wells, suitable guards shall be appointed and where necessary the assistance of the police shall be invoked.

21. Disinfection work shall always be carried out under the personal supervision of the Sanitary Inspector or the medical officer. It shall not be entrusted to the menial staff.

22. Every death occurring within the municipality shall be made the subject of investigation and personal enquiry by the sanitary inspectors, in order that the cause thereof may be ascertained with as much accuracy as possible.

23. Municipal servants of all ranks shall assist and co-operate closely with the cholera staff and the police, in every way compatible with their other duties, not only in obtaining information of early cases and detecting fresh cases, but also in carrying out preventive measures and remedying defects.

24 The chairman shall provide the Cholera Officer with a permanent advance of Rs. 50 for each division, the advance being recouped from time to time by bills supported by vouchers

25. In order to render possible the provision of early medical assistance to patients in their houses before removal to hospital or to patients who cannot be removed, a headquarter station shall be maintained in every division and shall be supplied with medicines and medical comforts from the municipal hospital, the infectious diseases hospital or other places selected for the treatment of persons suffering from cholera When a severe epidemic occurs, a medical subordinate shall reside at each headquarter station If a sufficient number of medical subordinates cannot be obtained, the divisional headquarter stations must be divided among the medical officers locally available

Note.—So far as possible all medical officers employed upon cholera duty should be given practical instruction in Kogar's method of treatment by intravenous saline injections and should be provided with the appliances necessary for such treatment.

26. The headquarters station of the medical subordinate shall be the headquarters of the divisional sanitary inspector on duty and of his cholera staff.

27. The headquarters of the divisions and the sites of the infectious diseases hospital or other places selected for the treatment of persons suffering from cholera shall be marked on the map referred to in rule 2.

28. *Reports and returns.*—The Cholera Officer shall at the commencement of the epidemic closely investigate the cause or causes of the outbreak with particular reference to any special or outstanding attendant circumstances. He shall submit a special report to the Chairman and to the Director of Public Health, indicating therein the measures which should be taken to deal with such special cases.

The chairman shall forward without delay copies of this report to the Collector, the Director of Public Health and the District Health Officer, and where the Cholera Officer is a medical officer other than the District Medical Officer or Civil Surgeon, to the District Medical Officer or Civil Surgeon as the case may be, indicating the action taken by him in the matter.

29. The Cholera Officer shall keep a close watch over the spread of the disease and shall enquire into the source of infection of the first case or cases occurring in every additional circle, ward or division of the municipality. He shall also maintain a spot map on which the actual distribution of cases by houses and dates shall be marked from day to day.

30. The Cholera Officer shall submit to the chairman of the municipal council a final report on the epidemic, not later than 15 days from the date of the report of the last attack and shall send a copy to the Director of Public Health. When the Cholera Officer is a medical officer other than the District Medical Officer or Civil Surgeon, the report should be sent to the Chairman, Municipal Council, and Director of Public Health through the District Medical Officer or Civil Surgeon as the case may be. This report shall include details of the cause or causes leading to the outbreak, the route by which the infection spread, its severity or otherwise, any other special circumstances and features, and in addition a succinct account of all the measures taken to combat the epidemic. The chairman shall without delay submit the report, through the Collector and the Director of Public Health, to the Government, and shall also send a copy to the District Health Officer for his information.

31. From the commencement of the epidemic and for a period of two weeks after the occurrence of the last case the Cholera Officer shall furnish to the chairman a daily report showing the number of attacks and deaths during the previous 24 hours and the total number of attacks and deaths since the outbreak The Cholera Officer shall at the same time forward copies of the reports by that day's post to the Collector, the District Health Officer and the Director of Public Health, and where the Cholera Officer is a medical officer other than the District Medical Officer, Civil Surgeon or the Senior Local Medical Officer to the District Medical Officer, Civil Surgeon or the Senior Local Medical Officer as the case may be.

32. The Cholera Officer shall maintain an epidemic diseases' register in which shall be entered in serial order daily reports of all attacks and deaths, and all special information relevant to any case or groups of cases in the following form :—

Serial number.	Name and house address.	Age.	Sex	Date of attack.	Date of report.	Removed to hospital and date.	Hours in district.	Result.		Remarks.
								Cured, died and discharged.		

This register shall be produced for the inspection of the chairman, the Collector, the Director of Public Health, the Assistant Directors of

Public Health and of the District Medical Officer, Civil Surgeon or the Senior Local Medical Officer when the Cholera Officer is a medical officer other than the District Medical Officer, Civil Surgeon or the Senior Local Medical Officer and other authorized inspecting officers.

33. Medical officers who are entrusted with the work of inoculating contacts and others with the anti-cholera vaccine shall maintain accurate records of all cases with special relevance to the immunity conferred upon them by the vaccine. The Cholera Officer shall obtain records of work from the individual medical officers working under him, and shall consolidate these in the report to be forwarded to the Director of Public Health.

34. The Medical Officer in charge of the infectious diseases hospital or other places selected for the treatment of persons suffering from cholera or isolation wards in a general hospital shall similarly maintain a correct record to show the admissions, treatments and results, the number of cases cured and discharged, and the number which proved fatal, and also any other particulars noticed by him regarding the clinical aspects of the disease. He shall send copies of the daily report of admissions and discharges during the previous 24 hours to the chairman and to the Cholera Officer.

35. The Medical Officer in charge of the infectious diseases hospital or other places selected for the treatment of persons suffering from cholera or isolation wards in a general hospital shall promptly inform the Cholera Officer of the places, where all patients admitted into or discharged from the hospital reside. The Cholera Officer shall, in his turn, keep a close watch on all such houses and their inmates for the purpose of discovering any possible "return cases."

36. The cholera staff shall be maintained for a period of not less than 21 days after the date of the last attack or for such longer period as the Collector, in consultation with the Director of Public Health, may order. During this period it shall be employed in remedying sanitary defects in co-ordination with the permanent sanitary staff.

37. *Expenditure and accounts.*—Charges for medical treatment incurred under these rules shall be met from the budget allotment "Hospitals and Dispensaries," and the remaining charges from the allotment "Public Health—2. Preventive Medicine—Epidemics."

ANNEXURE I.

Precautions to be observed on the approach of cholera.

A.—Habitations.

1. Every house must be daily cleansed of all sweepings, refuse and dirt of every description; filthy water, manure, washings from cattle-sheds and stables, etc., must be completely removed.

2. All damp and foul earth should be removed and replaced with clean dry earth.

3. The interior and exterior of houses should be whitewashed. If persons cannot afford to whitewash the outside walls, the inside ones at least should be whitewashed. In the case of the indigent poor, the local sanitary authority should undertake this work as a part of the disinfection work.

4. Doors and windows should be always kept open in order to secure free ventilation.

5. All rags, torn mats, gunny bags, old baskets, and such other articles of insignificant value should be destroyed by burning. Windows and other apertures for light and ventilation should not be blocked up or screened over.

6. All latrines and urinals should have all faecal matter removed at least twice daily and should then be thoroughly cleaned and flushed with cresol (1 in 300) or other disinfectant lotion.

7. All house drains should be cleansed and flushed daily in the same way.

8. The contents of mas-pools and soak-pits or catch-pits should be emptied daily.

9. The surroundings of every house should be maintained in a scrupulously clean condition.

B.—The Person.

10. The body and clothing should be kept scrupulously clean. Baths should be taken daily. Persons in delicate health should bathe in warm water in preference to cold.

11. The food should be simple, nourishing and of good quality and should be freshly cooked. It should be eaten as soon after it has been cooked as is possible, and after the hands and feet have been well washed and the mouth rinsed freely with fresh water.

12. All articles of food and drink should be kept suitably covered to prevent access to flies and dust.

13. Food which has become cold or stale, and all indigestible articles should be avoided.

14. All raw vegetables or leaves, over-ripe or under-ripe fruits likely to cause diarrhœa should be avoided. They should never be eaten unless they have been cooked. Salt should be used with the diet in sufficient quantities. Acid drinks such as lemon squash are useful as a preventive.

15. Bazaar sweets and similar cooked or uncooked articles of food sold by hawkers should not be eaten. Milk, buttermilk and vegetable obtained from places where cholera is prevalent should be looked upon with suspicion and should be rejected unless they have been well-boiled or cooked.

16. All water for domestic use should be obtained from the best possible source under the advice of the municipal authorities. It should be boiled for at least 15 minutes and placed in a clean pot suitably covered; and it should be protected from exposure and dirty hands and vessels should not be dipped into it. No water other than that which has been well-boiled and cooled should be used for drinking, cooking purposes or for cleansing vessels, plates, etc.

17. Drastic purgatives should be avoided when cholera is prevalent.

18. Any tendency to diarrhœa should at once be checked by appropriate treatment under medical advice. Persons who have had more than two loose motions in 24 hours should immediately apply to the local medical officer or Health Officer or a medical practitioner for advice and treatment.

19. Drugs containing opium and its alkaloids should be strictly avoided especially at the onset of diarrhœa.

20. Excessive drinking, irregular meals, late hours, exposure to wet and cold and everything tending to produce bodily-fatigue should be avoided.

21. Panic at times of cholera outbreaks is to be avoided and should be overcome by every means possible. People should be encouraged to face the outbreak and to help individually and communally in its early suppression. All exaggerated accounts of the disease should be prevented.

22. Every person and especially those who have been in contact with cases of cholera, should seek at once preventive inoculation. The pain or inconvenience is trivial compared to the protection afforded.

23. Every case of cholera or severe diarrhœa should be reported forthwith to the Chairman, Health Officer, Special Medical Officer or Sanitary Inspector, in order that the necessary preventive measures may be adopted without delay.

C.—Precautions to be adopted when there is cholera in a house.

24. Every fresh attack of cholera or acute diarrhœa should be notified by the house-holder or the medical attendant to the municipal authorities.

25. The patient should, in his own interest and for the protection of those free from the disease, be removed with the least possible delay to the Isolation Hospital where he will receive proper attention and medical treatment.

26. Where the patient cannot be removed to hospital—

(1) He should be isolated in the best ventilated apartment or room in the house.

(2) All superfluous bedding and clothing should be removed.

(3) All vomit and excreta should be carefully collected in a chatty containing saw dust or paddy husk mixed with a little cresol or kerosene-oil and should be burned without delay. This is the surest means of destroying the millions of cholera bacilli contained in them.

(4) Rags and clothing soiled by vomit and excreta should be similarly burned.

(5) Clothing and other articles of value brought in contact with the patient should be soaked in cresol lotion for half an hour and then boiled in water for 15 minutes and dried in the open sun. They should on no account be washed in or near a source of water-supply or be sent to the dhoby until they have been well disinfected.

(6) If any discharges are voided on the ground, straw should be burnt on the affected spot and the spot itself well flushed in cresol lotion.

സംസ്ഥാനപട്ടണത്തിനു പുറത്തു നടപ്പുള്ള മഹാമാരിറെഗുലേഷങ്ങൾ.

നമ്പർ 958.—മഹാമാരി (പ്ലേഗ്) എന്നു പറയുന്ന അപായകരമായ പകർച്ചരോഗം മതിരാശി സംസ്ഥാനത്തു ചില ഭാഗങ്ങളെ ബാധിക്കുകയും മറ്റു ഭാഗങ്ങളെ ബാധിപ്പാനിടയുണ്ടെന്നുള്ള ഭയം ജനിക്കയും ചെയ്തിരിക്കയാലും, സംസ്ഥാനത്തു തല്ക്കാലം നടപ്പുള്ള നിയമത്തിലെ സാധാരണ നിബന്ധനകൾ കൊണ്ടു രോഗം ഉണ്ടാകുകയോ പകരുകയോ ചെയ്യുന്നതു നിരോധിപ്പാൻ മതിയാകാത്തതായിരിക്കയാലും;

1920 ലെ 38-ാം ആക്ടായ അധികാര സാധുപ്പണ ആക്ടിനാൽ ഭേദപ്പെടുത്തിയിട്ടുള്ള 1897 ലെ പകർച്ചരോഗ ആക്ട് 2-A എന്ന വകുപ്പിനാൽ നല്കപ്പെട്ട അധികാരങ്ങൾ മൂലം താളിയോല ഗവൺമെണ്ടു്, ഒരു വിഷയത്തെപ്പറ്റി മുമ്പു പ്രസിദ്ധപ്പെടുത്തിയ എല്ലാ റെഗുലേഷങ്ങൾക്കും പകരമായി, മതിരാശി പട്ടണം ഒഴികെ സംസ്ഥാനത്തിലെങ്ങും 1928 ആഗസ്തു 15-ാം തീയതി മുതൽ ഒരു കൊല്ലത്തേക്കു താഴെ പറയുന്ന താല്ക്കാലിക റെഗുലേഷങ്ങൾ നിർണ്ണയിച്ചിരിക്കുന്നു:—

(c) "പ്ലേഗ് ആഫീസർ" എന്നതിനു ഡിസ്ട്രിക്ട് ഫൊൽത്ത് ആഫീസർ എന്നും മുനിസിപ്പാൽ ഫൊൽത്ത് ആഫീസർ എന്നും തന്നെ 2-ാമ്മാധികാര അതിനിക്ഷിപ്തരിൽ വെച്ചു ഡിവിഷൻ ആഫീസർ എന്നും അർത്ഥവും, അതിൽ വല്ല ക്ലപ്പുപ്പെടുത്തിയ പ്രദേ

And it was ordered and decreed that the defendants, the Administrators of the said Fund, give effect to the objects of the said trust in the manner hereinbefore declared and apply the said Fund towards assisting those who come under the said objects as extended by the said decree, and the Administrators of the Fund have accordingly applied to the Governor-General in Council to amend the said Notifications Nos. 3152 and 965.

NOTIFICATION.

No. 10.—In virtue of the powers delegated to him on Government Notification No. 485, dated 13th July 1898, and in exercise of all other powers enabling him in this behalf, the Commissioner of Excise hereby prescribes, under sections 6, 7, 10 to 13, 15, 24 and 29 of the Madras Abkari Act (I of 1886) as subsequently amended, the following rules relating to the manufacture, sale, import, export, possession and transport of Galenical preparations (extract and tincture) of the hemp plant. The rules will come into force from 1st January 1929.

Rules relating to the transactions in Galenical preparations (extract and tincture) of the Indian hemp—

(iv) any other person engaged in medical or veterinary practice and approved by the Commissioner for the purpose of these rules.

(c) "Prescription" means a prescription given by an approved practitioner for the supply of Galenical preparations of the Indian hemp in accordance with these rules.

2. The manufacture of Galenical preparations of the Indian hemp will be permitted only for medical and scientific purposes, by persons and in premises duly licensed for the purpose.

3. The manufacture should be carried on only from ganja lawfully obtained.

4. Any person may have in his possession without a license only such quantities of the Galenical preparations as may have been at one time dispensed and sold for his use in accordance with a prescription:

Provided that an approved practitioner may possess Galenical preparations for use in the exercise of his profession but not for sale up to the limit of 2 drams (54·6 grs. each) in the case of extractum Cannabis Indica and 1 lb. in the case of tincture Cannabis Indica.

5. A licensee may have in his possession Galenical preparations of the Indian hemp in such quantity and in such manner as may be specified in his licence.

6. The import of Galenical preparations of the Indian hemp will be allowed only under an import authorization granted by the Commissioner of Excise, Madras, in the case of imports from foreign countries and Indian States and by Collectors of districts in the case of imports from other parts of British India. 7. Importations into this Presidency in transit to a place outside the Presidency shall be covered by an import authorization issued by or under the orders of the Local Government within whose jurisdiction the port or place of importation is situated, such authorizations being marked "in transit."

8. The export of Galenical preparations of the Indian hemp is permitted in the following cases only:—

(i) To any Indian State or Foreign Settlement in the Presidency subject to the production of an import certificate from the Government of the importing country approving of the import and under an export authorization obtained from the Collector of Customs when the export is by sea to any place other than a maritime State in India and from the Commissioner of Excise, Madras, in other cases.

(ii) To any part of British India under an import authorization granted in accordance with the rules in such part and countersigned by the Collector of the district of export:

Provided that no such export authorization is required in respect of drugs imported into this Presidency in transit to a place outside British India by land if the import authorization covering the import has been marked "in transit" by the authority that issued the authorization.

Provided that in the case of sales otherwise than on prescription, the drug shall not be delivered to any person not licensed or otherwise authorized to be in possession of the drug who purports to be sent by or on behalf of a person so licensed or authorized unless such person produces an authority in writing signed by the person so licensed or authorized to receive the drugs on his behalf and unless the licensee is satisfied that the authority is genuine.

11. In the case of every sale otherwise than on a prescription, the licensee shall issue an authorization to cover the transport of the consignment to its destination, if a permit has not already been taken out from an authorized Government officer.

12 (a) A package or bottle containing Galenical preparations of the Indian hemp shall before sale be marked with the amount of the drug in the package or bottle.

(b) Galenical preparations of the Indian hemp shall be sold only in a package or bottle plainly marked—

(2) in the case of tablets or other articles with amount of the drug in each article and the number of articles in the package or bottle:

Provided that this rule shall not apply to any preparation dispensed by an approved practitioner or on the prescription of an approved practitioner.

15. The name of the person, firm, or body corporate dispensing the prescription, the address of the premises at which and the date on which it is dispensed must be marked on the prescription.

16. Every bottle or package containing any Galenical preparations of the Indian hemp shall be marked with the percentage or proportion or amount of *Cannabis Indica* contained in the preparations.

17. Licensees shall maintain correct accounts of all transactions in the drugs in the prescribed form which can be purchased from any taluk cutcherry, such accounts to show in respect of each receipt the source of supply and the quantity received and in respect of each issue the quantity issued and the name and address of the person to whom it is issued. Report of the Select Committee on the Madras University Bill, with the Bill as amended by the Committee 69

Report of the Select Committee to be presented to the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

BILLS Nos. 10 and 24 OF 1927

Bills to amend the Madras University Act, 1923.

To

THE HONOURABLE THE LEGISLATIVE COUNCIL
OF THE GOVERNOR OF MADRAS.

WE, the undersigned members of the Select Committee, appointed to consider the Bills of the hon. the Minister for Education and of Mr. S. Satyamurti, to amend the Madras University Act, 1923 (Bill No. 24 of 1927 and Bill No. 10 of 1927), have the honour to submit the following report.

2. The Bill of the hon. the Minister for Education was published in the *Fort St. George Gazette* in English on the 18th October 1927 and that of Mr. S. Satyamurti on 22nd March 1927.

3. The Select Committee met on the following days, viz., 4th November 1927, 19th to 22nd December 1927, 13th to 18th January 1928, 16th August 1928 and 6th September 1928.

At its meeting held on Friday the 4th November 1927, the Committee resolved that the opinion of the Senate of the Madras University as well as the opinions of the members of the Syndicate of the Madras University on the Bills in question be obtained and circulated to the members of the Select Committee. Those opinions were duly received and considered by the Select Committee at their subsequent meetings, and on the 6th September 1928 the Select Committee passed their report.

4. Both the Bills under consideration provide for the abolition of the Council of Affiliated Colleges. Under the existing Act, the functions of this Council are mainly advisory, and the Council itself was intended by the framers of the Act only to safeguard the interests of mufassal colleges in the affairs of the University. The Committee consider that this object can be even better achieved by providing for the representation of these interests in the Academic Council and in the Syndicate and they have accordingly done so and have distributed most of the functions of the Council of Affiliated Colleges amongst the other University authorities. They therefore agree to the abolition of the Council of Affiliated Colleges.

5. The abolition of the Council of Affiliated Colleges leads to a consequential reduction of the strength of the Senate by ten members whom that Council is now returning to the Senate. The Committee have also removed the Surgeon-General, the Advocate-General and the Director of Agriculture from the list of ex officio members of the Senate in addition to the Chief Engineer who is already sought to be omitted by the Bills as they consider that their presence in the Senate, if considered necessary, can be secured by their nomination by the Chancellor. The Committee are unable to accept any reduction in the number of members returned to the Senate by the registered graduates of the University or by the district boards and municipalities in the districts. This representation is the only method by which the administration of University affairs can be brought into relation with public opinion and by which mufassal interests can be safeguarded. The

Committee have thought it necessary to provide for the separate representation of Muhammadan interests by giving two seats to the Muhammadan Educational Association of Southern India and to make it clear that the power of nomination given to the Chancellor under section 14 of the Act is intended mostly to secure the adequate representation of the depressed and backward classes and of other minorities not otherwise adequately represented.

6. The Select Committee have made various other changes in the Bill; and the more important of them are referred to below:

Clause 2.—The definition of an 'Oriental College' is found in Mr. Satyamurti's Bill and has been incorporated in the Government Bill with the change of the term 'Oriental languages' into 'Oriental learning.' The University should encourage not only the study of oriental languages but other kinds of oriental lore as well, such as astronomy, medicine.

Clause 4.—The additions made to the various powers of the University defined in this clause are intended as far as possible to make them exhaustive of those that are referred to in the various sections of the Act or in the other clauses of this Bill.

Clause 5.—The Select Committee consider that the proviso sought to be added by the Government Bill is unnecessary, but agree to accept the amendment proposed by Mr. Satyamurti in his Bill to add the words 'or political' after the word 'religious.' They think that no person should be excluded from membership of any of the University authorities or from admission to any degree or course of study on the sole ground, *inter alia*, of political belief.

Clause 15 (*class III*), *item* (4).—This item only restores the existing item (4) of the present Act. There is no sufficient reason for omitting that item. The representation of registered graduates and of district boards and municipalities has been left as it is in the present Act as well as the number of members whom the Chancellor is empowered to nominate. By providing that out of ten members elected by the Academic Council from among its own body five at least shall be teachers of Affiliated Colleges, the representation of Affiliated Colleges in the Senate is ensured.

Sub-clause (*b*) at the end has been redrafted so as to provide not only for cases where a member elected to the

Senate in his capacity as a member of a particular body, e.g., a district board, has ceased to be a member of that body as well as for cases where an elected or nominated member of the Senate becomes entitled to sit thereon ex officio Provision has also been made for the cessation of his membership of other University bodies on his ceasing to be a member of the Senate, in cases where his membership of such other University bodies is due to his membership of the Senate.

Clause 16.—While the Committee have accepted this clause, they consider that it is necessary to make some express provision for the decision of questions as to whether the Syndicate or the Academic Council have exceeded their powers or not and they have accordingly provided that such questions shall be decided by the Senate by a two-thirds majority of the members present and voting at a meeting.

Clause 17.—To the functions of the Senate contained in this clause have been added such important functions as the creation and management of an Affiliated College Fund, to make recommendations to the local Government for the recognition of local areas as University centres and the prescription of fees to be charged for the recognition and affiliation of colleges, admission to examinations, degrees and diplomas, and other purposes

Clause 19.—In accordance with their policy of providing for adequate representation of mufassal colleges on the existing University authorities, they have expressly provided that at least three of the eight members elected by the Senate to the Syndicate shall be teachers of affiliated colleges.

Clause 20.—They have given power to the Syndicate to delegate any of its powers to the Vice-Chancellor or to a committee from among its own members. They think that such petty powers as the appointment of members of the subordinate clerical staff or of the menial staff of the University offices may well be delegated to the Vice-Chancellor in case the Syndicate desire to do so.

Clause 22.—The Committee have made certain amendments to this clause for the better representation on the Academic Council of all the interests concerned.

7. It is unnecessary to refer to the other changes made by the Select Committee; most of them are verbal and others which effect changes of substance are only intended

to bring about a better classification of functions among the Senate, the Academic Council and the Syndicate. In making such a classification of functions the Select Committee have been actuated by the principle that functions which are of an executive character should be allotted to the Syndicate, those that are purely of an academical character should be allotted to the Academic Council and those that are of a lagislative character or have anything to do with the secular management of the University affairs should be allotted to the Senate.

8 Sub-section (1) of section 30 and Schedule I of the Act were intended to provide for bringing the University into working order at the time when it was constituted in the year 1923. They have ceased to be of any force and have therefore been recommended for repeal.

9. Such portions of Mr. Satyamurti's Bill as have been accepted by the Committee were either already in the Bill of the hon. the Education Minister or have now been incorporated in it and the rest of Mr. S. Satyamurti's Bill has not been accepted by the Committee.

10. The changes introduced by the Committee in the other Bill, viz., Bill No. 24 of 1927, are so important that they think it necessary that it should be republished in English in the *Fort St. George Gazette*.

11. A copy of the Bill as amended by the Select Committee is appended.

NOTE.

1. Regarding the verbal alteration made in section 9 (1), clause 9 in the Bill, the language in

(*a*) the Dacca University Act of 1920 (section 9, clause 1) is

"The Chancellor (of the University) shall be Governor of Bengal." He shall by virtue of his office, etc.;

(*b*) the Lucknow University Act, 1920 [(section 9 (1)] is

"The Chancellor shall be the Governor of the United Provinces." He shall, etc.

The Madras Act VII of 1923 followed these sections There is no need to 'translate' the clause into another form. The Dacca University Act was drafted by Englishmen.

2. Section 41, sub-section (*b*) of the second paragraph, i e, clause 35 of the Bill—

It is necessary that the University should have a fixed annual grant for all or any of the objects mentioned in the section. The University should be kept above politics of the Government The authorities must know where they stand financially to enable them to work schemes of development This principle is introduced in Dacca University and is also proposed in the amending Bill of the Calcutta University. Being a financial clause, the Minister in charge of the Bill may move the amendment to confirm the 'Block grants' now proposed by the Government.

NOTE.

I think it necessary to provide for the representation of Muhammadan interest also on the Syndicate. I have therefore to suggest that in clause 10 of the Bill under the head "Class II—Other members," in sub-clause (1), add the words "and one at least a teacher of Muhammadan College" after the words "shall be teachers of affiliated colleges."

III

MINUTE OF DISSENT.

I am strongly in favour of retaining the Council of Affiliated Colleges as a corporate body with their powers strengthened and widened, so that it is made obligatory to consult it in matters about which it ought to be consulted, an obligation more often than not overlooked in the past. I am also generally in favour of supporting the other views of the Senate, which is on the whole in a better position to judge of the reforms needed than the Legislative Council. I must urge also the necessity of additional faculties being formed for fostering the study of veterinary science, comparative religion and technology, and for insisting on Government providing a definite minimum grant annually of three lakhs of rupees.
